

Greetings,

I am fearful of the repercussions of biased news organizations on the health of the United States.

Sinclair Broadcasting is forcing their stations to air a very one sided piece about John Kerry. This is a huge disservice to the public. They should either allow equal time to Kerry or desist this irresponsible act. What is even worse is that this anti-Kerry documentary is due to air days before the election. This is a clear example of the dangers of media consolidation.

Sinclair is not serving the public interest. This company uses the public airwaves free of charge, and is obligated by law to serve the public interest. Instead, they are setting aside that obligation and instead putting their own interests ahead of the public's.

Sinclair's actions show why we need to strengthen media ownership rules, not weaken them. They show why the license renewal process needs to involve more than a returned postcard. Thank you.
